

NUR FITRIYANA DEWI

FRONT - END DEVELOPER

Rembang, Jawa Tengah 59271 | 628988962829 | fiyanad7@gmail.com | [linkedln](#)

I am a professional with experience in Production Planning and Inventory Control (PPIC), skilled in data management, process analysis, and cross-department coordination. I'm currently transitioning into a Frontend Developer position, with hands-on experience in HTML, CSS, JavaScript, and creating responsive, user-friendly interfaces. I bring strong problem-solving abilities, attention to detail, and adaptability to new technologies in web development by leveraging my analytical mindset and structured working style developed at PPIC.

PROFESSIONAL EXPERIENCE

PRODUCTION PLANNING AND INVENTORY CONTROL |

PT. KNT INDONESIA

March 2019 - Desember 2024

Description:

- Developed and managed comprehensive production schedules, leading to a 15% increase in on-time delivery rates by aligning manufacturing processes with accurate sales forecasts.
- Coordinated cross-functional teams including procurement, production, and sales, resulting in a 20% reduction in inventory holding costs through optimized stock levels and efficient supply chain management.
- Analyzed production performance data to identify and act on trends, which led to a 30% improvement in production efficiency and a 12% reduction in production downtime.
- Managed and resolved inventory-related issues, such as discrepancies and shortages, effectively minimizing production disruptions and ensuring a consistent supply of products.

EDUCATION

Non-formal Education

FRONT - END DEVELOPMENT BOOTCAMP | Dibimbing.id

September 2025 - Present

Description:

- Completed a practical Frontend Development bootcamp that focused on applying modern web technologies in real projects.
- Learned and practiced HTML, CSS, JavaScript, and responsive design principles.
- Used Git and GitHub throughout the program for version control and project collaboration.
- Learned to write clean and well-structured code while understanding why scalability and maintainability matter.
- Developed strong understanding of UI/UX fundamentals and best practices.

UI-UX Research And Design : Fullstack Intensive Bootcamp | My Skill

Mei - Juli 2023

Description:

- Completed a hands-on UI/UX bootcamp focused on understanding user needs and designing intuitive digital experiences.
- Learned core design principles such as layout, typography, color theory, and visual hierarchy.
- Created user flows, wireframes, and high-fidelity prototypes using tools like Figma.
- Worked on multiple end-to-end design projects, from initial concept to final prototype.

TOEFL IBT COURSE | English Academy by Ruang Guru

January - March 2022

Description:

- Achieved an intensive TOEFL IBT preparation course, acquiring advanced skills in reading, writing, listening, and speaking in English.
- Developed strong test-taking strategies and improved language proficiency, resulting in a comprehensive understanding of academic and conversational English.
- Participated in simulated TOEFL exams, receiving targeted feedback and guidance to refine performance.

Formal Education

YOGYAKARTA STATE UNIVERSITY | Bachelor of Biology

March 2012 - February 2017

- Grade : 3.49
- Honor project :Toxicity of Lindane with Banana Peel Nanoparticle Biosorbent Treatment on Mortality and Liver Structure of the Common Carp

SKILL AND INTEREST

- Hard Skill : HTML, CSS, JavaScript, React, Git, GitHub, Responsive Web Design Figma
- Soft Skill : Communication, Team Collaboration, Attention to Detail, Problem Solving, Adaptability, Creativity
- Language : Indonesia (Native) , English (Intermediet)
